SACRED CONCERT PROVED POPULAR

Director Feese and His Band Rendered Delightful Program

The Sacred Band Concert on Sunday afternoon was much appreciated all those in attendance, and the director and his band deserve the congratulations for the rendition of the well selected program in the delightful manner in which they presented it.

The Sunday afternoon Sacred Concerts promise to become quite popular, and the attendance will likely increase from time to time.

This concert showed the Hershey Band to be capable of playing sacred music as well as classic or popular music which they did so well in their daily concerts last week.

At each concert an improvement is very noticeable and this is a most creditable showing for both the band and its director.
