

MOLLY TELLS—

Aruba In The Caribbean Quiet Again, Nurse Writes To Faust Family Here

All's quiet on the Aruban front, according to a letter received this week from Mr. and Mrs. Elmer Faust, 341 Spring Mill avenue, from their daughter, Polly Faust, R. N., a member of the nursing staff at Lago Hospital on the Dutch West Indies island in the Caribbean Sea.

The tiny isle, mainly comprised of Standard Oil Company refineries, was the object of three German shelling attacks the latter part of February.

Miss Faust, who signed up for two years nursing service in January of 1941, has nine months more of service there.

"I'm well and feel grand since I find my two weeks' vacation," Miss Faust writes, "I flew over to Venezuela for five days and was, of course, quite thrilled with my first flight. My only complaint was that the windows were blacked out and I didn't know when we left or touched ground. It was just like riding a bus."

Made me a little homesick over there. There was grass and trees and flowers and it all made me think of Spring at home. But now I'm back on duty again and all set for another nine months' till my big vacation. I imagine it will fly by!

"Everything is quiet and as usual down here. We are fairly busy at present. I'm on nights, 11 p. m. to 5 a. m. and last night we had the cutest little black twins—a girl 1 1/2 pounds, and a boy 5 pounds, and all are doing nicely, thank you!"

"Finally finished my curtains and have them up. They are quite pretty and altho' the effect is somewhat spoiled because of the black background."

"Did you have a nice Easter? I was off until 11 p. m., and we had an informal dance Saturday night, which was fun. I went bowling on Easter also. I was getting kind of sleepy (it's almost 9 a. m.) and have a date to go for a little ride, but if he doesn't hurry, I'll be snoring."

Molly is sure that the Indianapolis Gap soldiers, now on guard duty at the Philadelphia waterfront, must have had a creditable impression of Conshohocken from the attractive girls who attended a dance for the boys, at the invitation of the Red Cross, Tuesday night at the Commercial Museum, Philadelphia. Several hundred lovely girls, invited by the Red Cross through Women's Clubs and Junior Women's Clubs, made the evening a delightful one for the boys. The 29th Division Orchestra played and Molly is told that it was "smooth" indeed.

The local girls included Gwen Overdorf, Mary Scenlin, Mary Louise Watson, Marion Eate, Mary Peacock, Ruth Hippie, Kay Wood, Marjorie Montross and Ruth Markie.

The Clifton Woodwards will motor tomorrow to State College, where they will attend a Mother's Day program as the guests of the "Daisy Chapter—Twin's Club" of State College.

Two Weddings At St. Mary's

### Church League All-Star Teams Picked By Fans

Arthur L. Freas, former player and manager, picks All-Church League First and second teams—Reasons for selections.

It is only natural that each year after the close of the Church League basketball season, some followers of the league attempt to pick an All-League team. This year Arthur L. Freas, former player and manager of St. Mark's Lutheran team, has made a selection, giving his reasons for placing certain players on the first and second teams and also giving some players honorable mention.

The selections are Mr. Freas' personally and in no manner has any connection with the views of the paper as to who should be honored as All-League selections.

Below are the selections by Mr. Freas for the first and second teams:

- Forward—J. Gilinger, Lutheran; Webster, Episcopal.
  - Forward—Lewkowicz, Balligo Baptist; R. Bate, Methodist.
  - Center—Myers, Presbyterian; Heron, Episcopal.
  - Guard—Wright, Episcopal; Havener, Lutheran.
  - Guard—Graham, Episcopal; Dutil, Methodist.
- Joe Gilinger was chosen because if he was "on" he was unstoppable and scored in the double figures every time his team played the second-place Episcopalians and his 19 points in the playoff game.
- Lewkowicz for being the league high scorer, his ever scoring threat and all-around floor play.
- Myers for his team floor play and being third high scorer in the league and capable of outjumping many other league centers.
- Wright for his guarding ability and ball handling and keeping the Episcopal team together when the going was rough. His play was responsible for Episcopal victories over Lutheran twice by the same score, 24-23.
- Graham, the best roving guard in the league.
- Much could be said about the second team also.
- Honorable mention should go to Longacre and W. Gilinger, of Lutheran; Long, of Episcopal; Slater, of Methodist; Robinson, of First Baptist, and Shaffer and Schrack, of Balligo.

The question may arise as to why Havener and Dutil were placed as guards on the second team when both are centers. Both are tall and can take the ball off the backboard with any in the league and both are always scoring threats. There was little to choose between these two players and Heron but Heron's ability to tap the ball in scrimmage under the basket gave him the call.

I choose for captain of the first team—Joe Gilinger—and captain of the second team, R. Bate.

Both boys are adept in seeing changes take place with the opposition and size "up" plays with any players in the league.

### ATTENDED REUNION OF OLD-TIME COURT STARS

William Neville, manager of the Conshohocken Championship basketball team of 1904-1905 season, attended the 17th annual reunion and banquet of the Jasper team of the Eastern Basketball League held Wednesday night at KISA Hall, 1510 North Howard street, Philadelphia. The former local magnate met many of the old-time court stars and was introduced to the gathering, Bill Kennedy, who managed the Jasper team for many years and close personal friend of Mr. Neville, presided as toastmaster.

### Local Sailor Boxes at Training Station

R. I. APRIL 16 — (Special to The Recorder) Stanley R. Wadarski, 23 year old son of Mrs. Josephine Wadarski, of 342 East Elm street, Conshohocken, Pa., who is undergoing recruit training at Newport, R. I., is taking up boxing under the guidance of Freddie "Red" Cochrane as part of the Navy's physical fitness program.

Wadarski met Arthur E. Rutecki, 20, of Almonesson, N. J., in an exciting three-round match which was one of four presented at a recent smoker for the Bluejackets at this Station. The remainder of the program consisted of a variety of entertainments.

Wadarski, weighing 145 pounds to his opponent's 148 pounds, refused to concede anything and slugged it out with Rutecki on almost equal terms. The aggressive tactics of the fighters kept the Bluejacket spectators on the edges of their seats throughout the sizzling scrap.

Wadarski joined the Navy for a grimmer battle, that of carrying the fight to the deadly Axis enemies. For his part in this hostility, he seeks to qualify as a Gunner's Mate on one of Uncle Sam's warships. When he completes the intensive recruit training program here he may be either sent to share duty, to the Fleet at sea, or to one of the many trade schools conducted by the Navy for the development of skilled craftsmen.

### Bowling

In the fight for the second-half title in the Temple Bowling League, Team No. 7 piloted by Roy Fisher, played Team No. 1, led by Charles Slaye to gain the right to meet Frank Hiltner's No. 8 team for the league championship and went down to defeat. In winning the following scores 999, 1006 and 1029.

The teams were paced by Russ Adair with a 550 score and Charles Stanley with a score of 522.

### League to Fete Players and Make Awards

Church League to hold annual dinner tomorrow night in St. Mark's Church—Individual and team awards—Entertainment.

The annual banquet of the Conshohocken Church Basketball League tomorrow evening in the social rooms of St. Mark's Lutheran Church will mark the final chapter of the 1942 season.

The festivities will begin at 6 with a turkey dinner served by the men's group of St. Mark's Church, followed by the presentation of awards, group singing, a few short addresses and a presentation of a moving picture of the bombing of Pearl Harbor. Arthur Marland, president of the league, will preside.

The Spencer L. Jones Trophy, annually awarded the team winning the championship of the league, will be presented to the Lutheran team, which failed to win either the first or second-half title, but came through in the elimination post-season series. A team in order to gain permanent possession of the trophy must win the championship three consecutive years.

Permanent trophies will be awarded the Lutheran and Episcopal teams for ending the season in first and second place, respectively, and gold basketballs will be awarded the players of the two teams.

An award for high individual scoring honors goes to John Lewkowicz, of the Balligomingo Baptist team, who enlisted in the U. S. Navy and was called to service shortly after the close of the regular season. An award will also be presented to the outstanding player of the league, the winner, however, will not be announced until time for the presentation.

Harry Fox, athletic director and head coach of football at Conshohocken High, Attorney E. Arnold Forrest, and Ed Phillips, publicity director of the Philadelphia National Baseball Club, will be the principal speakers. The program will be closed with the showing of moving pictures of the bombing of Pearl Harbor.

Good News for Corporations

Babson says standardization increases profits and lowers prices—Women's dresses will be shorter and stockings may disappear—Families will have to do with less.

By Roger W. Babson

Washington, D. C., April 17.—Rationing is becoming a familiar word in our speech. Now standardization is to be its twin in the vocabulary of our war economy.

We "ain't" seen nothing yet in the way of actual rationing or standardization. The necessity of doubling our industrial war production every twelve months and the importance of eliminating waste in luxury and non-essential goods are shortly straining us of many things. Our heretofore free indulgence and mode of life, characterized by material abundance, should slowly but surely pass from the American family scene.

Face Facts, Forget Fancies

The U. S. A. has the greatest industrial facilities in the world. It is also a large agrarian country although exceeded in this respect by India and Russia. Our industrial activity in the past has been devoted to the production of goods of a peaceful nature. Almost overnight we have been obliged to about face and turn our industrial capacities and our agricultural output into a vast coordinated machine for waging an offensive war.

Good for Corporations

Manufacturers of consumer goods, now handicapped by price ceilings and in standardization. Priority restrictions on raw materials and price restraints on finished products have raised prices with manufacturing costs. Added to everything else has been rising wages and taxes. However, the simplification of merchandise, the use of substitutes, and the use of more women will do much to maintain and even increase corporate profits.

Frills Are Out

The elimination of waste in all forms is an important factor in winning the war. We should voluntarily give up the luxuries and non-essentials, the production of which interferes with war needs. It is necessary to protest against labor and productive facilities and storage space for the more important needs of war production. Hence, we have restrictions and standardizations in many lines of consumer goods.

Teacher Replies to Wage Criticism

To the Lady of the House: As a teacher, resident and taxpayer of Conshohocken I would like to point out a few things which perhaps you did not think of or understand when you wrote your letter to the Recorder.

Remembering the Soldiers

Whitemarsh Women's Club is arranging to send gift packages to every man in the armed service from Whitemarsh township.

Home Defense Inspection

Heads of the Montgomery County Defense Council with heads of other activities aligned with defense will inspect the various units for home defense in this section of the county tomorrow.

Home Defense Inspection

In this borough and West Conshohocken the various groups will gather together and be viewed by the inspection party. Fire apparatus will be stationed at strategic points and the first aid stations will be made ready for service.

Home Defense Inspection

The defense chairmen of this borough and West Conshohocken feel confident the local groups will pass inspection with flying colors, as defense service is taken as a serious matter and those who have volunteered for service have done so because they recognize the danger the nation and particularly this section may be exposed to.

All the volunteers are trained in the work they will be called upon to do in case of an air raid. Should there be no raid—and we all hope there will be none—the training will have been of value.

in metal containers. Plywood and plastics will become standard substitutes for many wood products. This will help certain wood working and chemical companies which are now being converted into sources of new supplies of raw materials.

Get Accustomed to Changes. Consumer goods, especially personal and household effects, will show marked changes. Living habits and standards must be revised for the duration. Only in a broad general fashion do business and civilians now know what's ahead for them. To the casual shopper, most department store and other retail shelves appear comfortably filled. Watch out, however, for scarcities when replacement becomes necessary. Substitutes and simpler standardized products will, however, be available and serve the purpose of countless present products.

This entire column could be devoted to lists of everyday items due for changes. In addition to the few already mentioned, there may be noted table silver, linens and blankets, kitchen utensils, personal clothing, furniture, tools, laundry necessities, electrical and mechanical appliances, dyes, medical and pharmaceutical supplies, building supplies, sporting goods and various foodstuffs. English families have discovered how well they can get along on how little. It has made them healthier and given them a direct part in their country's war effort. Surely we can do as well.

Standardization of hundreds of consumer goods products will increase mass production possibilities. It will also give us many competitive practices. There is hardly a manufactured article of personal use which cannot be standardized and simplified and still serve its purpose. The laborer, the gaudy painter and my granddaughters' costume jewelry may go by the board, but as sure as the sun will rise tomorrow the child will be just as happy with simpler substitutes.

Women's skirts will get shorter and their stockings may disappear. Men's suits, while pretty well standardized, will be cut on new lines to conserve cloth. Many liquid foodstuffs will appear as dried varieties packed in paper rather than cans.

Means depriving themselves of many things—Not only do we pay taxes, but we are first to be asked and expected to give to every cause in the community. Too, it is not generally known just how much many teachers give to children whose parents, for one reason or other have not given them the bare necessities of life. Teachers buy for their pupils, toothbrushes, clothing and numerous other things for their pupils. Besides having regular expenses, teachers pay out about a week's pay a year to different professional organizations, such as Schoolmen's meeting, P. T. A., E. A. dues and for numerous magazines and materials for use in the school room.

Now for one, two or three men in the family being called to war thereby greatly reducing family income. Remember, teachers have to face this same problem. However, it seems to me, any family who has had income such as three men might earn could have saved some of it for a rainy day. Some of our teachers have more than \$20 per week. Many of our teachers have someone at home they help to support. Too, many teachers are obliged to take extra courses, and this takes money.

There is a gallant gesture on the part of the Director to raise the salaries of the teachers, but ungallant to hundreds of Conshohocken women who will have to bear the burden of the family when her husband goes to the front. It hardly think that time will come, but if it should perhaps many of these women you speak of will find it very hard if they must work and have no more income than many of the teachers.

You say you never heard of a teacher starving. No, I hope not, because I have faith enough in my fellow workers to feel they will, if necessary, go without any pleasure or luxury, to keep them from that condition. I know the majority of children today get and go to a great deal more than the average teacher. How many teachers do you see at the movies? Ask the children and you learn they go one, two and three times a week. The majority of children do not think of spending less than five cents at a time. I am glad their parents have so much money to give them, but they should be taught to buy stamps and books with it at this time, or when this war is over and there is really a depression, many of these people will be the first ones to expect help from those who have sacrificed.

There is just one more thing I would like to mention. Today men and women working overtime receive time and half time. The teachers receive nothing, nor have

they expected it. There is not a teacher in the system who has not given many hours of overtime work each year. Just a short time ago the grades had a Musical Festival. The teachers were all there that night assisting. Many noon hours were spent in practice and preparing costumes. Too, when the Sugar Rationing had to be arranged who was asked to do it? When children are out of school, teachers have to spend extra time when they return so they need not repeat the grade, thereby saving the child a year as well as the school district money.

You spoke as if the School Board had a thousand of the townspeople. May I say that the teachers have been asked and are in every way co-operating in trying to save wherever possible. In every case we are saving on paper and having children use the blackboard when possible. We meet books and make them last as long as possible. In closing I would like to say that I really feel that all the teachers of Conshohocken are asking for, is what by rights belong to them.

Deplores School Debt, Tax Raise

To the Editor: Strange isn't it that although that \$15,000 debt against the school board is said to have been hanging on for some half-dozen years, that nothing was ever done about it until now?

Just look a little deeper, friends. Don't Peter who probably kept in the background and no mention made of it before, because school directors were up for election last year. Had they been asked and had the good of the people they are chosen to represent at heart, they would have gradually begun to decrease the debt some time ago, with perhaps a gradual and small increase in the taxes, at a time when we didn't have increased federal taxes because of war and were not facing the great economic uncertainty of today, when many of us don't know what drastic changes may happen in our incomes.

What those directors should be doing is looking to ease the burden of Conshohocken taxpayers, not adding to it, in a "robbing-Peter-to-pay-Paul" manner. There are many ways in which the school board can get awake at night, wondering how they are going to meet increased

war taxes, the mounting cost of living and a probable curtailment of income when members of their family go into military service. Use your heads, directors—who are to raise the school tax and gain the goodwill and not the ill-will of Conshohocken taxpayers. One of the latter.

THE SCHOOL TAX

As a taxpayer I would like to call the attention of the school board that not all taxpayers are working in defense plants and making big wages. Some of us are hard pushed to meet expenses and do not look forward with pleasure to expected higher taxes from the government as well as from the local school board.

I have been told the athletic field, now not used at all, cost \$6000. Why would that ground and the board would not have to raise taxes?

I have also heard the number of pupils now attending the schools is more than 300 less than last year. This looks as if several teachers are not necessary and when resignations are received, there is no need of replacements. Also, it might be well to suggest that if the present directors cannot operate the schools under the present taxes, that they resign and give place to those who can. There are plenty in Conshohocken who can do so.

# Report of War Montgomery Legislators In The Special Session

## Annual report made to Federation of Women's Clubs at Spring meeting—\$1080 spent for renewal of six "adopted" children.

The annual report of the war refugee relief committee of the Montgomery County Federation of Women's Clubs is being presented today at the Spring meeting of the Federation at Jeffersonville. A number of members of the "White-neck" Women's Club attended.

Mrs. C. B. Burke, Plymouth Meeting, chairman of the committee and president of the White-neck Club, made the report, as follows:

"Thirty-two clubs have supported this work during the year \$115.00 in cash was contributed. \$1080 has been spent for renewal of our six 'adoptions' and \$140 on last year's account owing to increase of prices, leaving a balance April 1st of \$295.60.

"I have contacted many of our contributing clubs and find they are in favor of continuing to support our five remaining children and making a strong effort to secure at least a dollar for each local Montgomery County Children who through the war will need assistance. It will only cost \$900 next year for our 'adoptions' and if every woman supports the project we will have at least \$2300 for American children."

"Rudi Netzer, our 17 year old Polish refugee from Germany, will complete his trade as a metal worker, and go into war work within a few months. Helping him has been most worthwhile. Our two small boys, Lawrence, six, and Robert, seven, are in much better health and are developing nicely. Mary, four half of the Maloney twins, were in the hospital in December, but will again. The two Clark children, Beverly, four, and Barbara, seven, are still frail and are being kept in Dr. Anna Freud's Nursery, so they are under her personal care.

"Every package we shipped to our children, and to the Foster Parents' Plan for general distribution among war children, arrived safely in London. The clubs collected 690 pounds of jelly and jam, 102 pounds of candy and clothing valued at \$452. One club furnished the Christmas gifts for our adoptees and they arrived in good condition and in time for the holidays. Each child was thrilled and wrote letters of appreciation."

## Oppose School Tax Raise

Yes—'Lady of the house'—I agree with you. There is no time to raise the school tax.

There has been much controversy since the meeting of the school board on Monday, Nov. 20, 1941, that not run into ONE person who favors it.

The teachers have steady work and get their pay. If there is any job in this vicinity that one gets as many days off with pay as the teachers do, I would like to know and apply for it.

I find few of the teachers here are home-owners, although some have been drawing salaries here for years but the town is the beneficiary by their wages. Many are married with husbands making good salaries also. We never had so many demands made on us and I believe the end is not yet.

Many home-owners who are older have little or no work. While capable, they are still uncalled. Just why should they be pushed to the wall, to pay the teachers more, or no one else can see.

A TAXPAYER.

## REPORTED ACCURATELY To The Recorder:

## Wipe Out Summer Discounts on Coal

The Price Administration on Wednesday revised the price ceiling on anthracite by eliminating the spring summer discounts on sales at the mines, but refused a request of coal operators for a 20-cent-a-ton increase for domestic coal sizes.

Elimination of discounts was ordered to "save small producers of anthracite from operating at a loss through a period when the Government is calling for an unusually high level of production," Administrator Leon Henderson explained.

Seasonal discounts abolished were, for April, 50 cents a ton; May, 40 cents; June, 25 cents; and July, 10 cents.

The RECORDER will be mailed twice each week to any U. S. Army Camp for \$1.50 a year.

During the Special Session, the activities of the Montgomery County delegation aroused public comment. Representative winner was a Republican member of the Select Committee on all legislation. Representative Brunner made the accepted argument for the Administration in the Anti-Sabotage Bill. In the final argument on the conference report on this bill, the House practically accepted the Senate Bill. Representative Brunner also made an argument in which he expressed appreciation of the fair attitude of the labor leaders, both of the F. of L. and the C.I.O., who originally had been opposed to the Anti-Sabotage Bill as it passed the Senate, but who eventually came in line for the conference report which was in the same bill. As the House is under Democratic control, the Montgomery County Representatives, all of whom are Republicans, did not introduce much legislation in the House, but in the State Senate, which is Republican, Senator Edmonds introduced Senate Bill No. 16, which was the Administration Bill, providing for the administration of trusts where the trustee is in military service and it becomes necessary to have a substituted fiduciary appointed by the court, so that the business of the trust may be carried on. This bill passed both Senate and House and was approved by the Governor on March 20, 1942, as Act No. 3 of the Special Session.

Also, Senator Edmonds introduced Senate Bill No. 42, which provided for the use of other substances than metal for automobile licenses, or any other method of notice in which the existing law provides for metal tags, the idea being to use a tag or sticker made use of other materials than metal for the purposes of these tags, so as to save the stock of metal for war purposes. This law also provides that under regulations issued by the proper authority, a tag or sticker may be provided for existing licenses, in order to indicate that the license has been paid. This will result in great saving in the use of metal for both Senate and House.

Senate Bill No. 46 also introduced by Senator Edmonds, provides that the strict laws prohibiting the loading of explosives on the docks of Philadelphia may be suspended under proper regulations, so that the use of the public, in order to permit the loading of fixed ammunition and small arms ammunition for the docks of Philadelphia. The original Senate bill provided that regulations should be adopted by the Governor, the Delaware River Navigation Commission, and the Director of Wharves, Docks and Ferries where the Port of Philadelphia was under proper regulations, and the provision for regulations, and that put the bill in conference. In the conference, however, the House agreed that regulations to safeguard the interests of the public should be prepared by the Delaware River Navigation Commission, and where Philadelphia was concerned, the Director of Wharves, Docks and Ferries, and in this form the bill passed unanimously.

Senate Bill No. 74 was introduced by Senator Edmonds, in conjunction with Senator Homsher of Lancaster County. It provided a system whereby, in the event that any law was suspended at this Special Session, without a provision for regulations to take the place of the existing law, the Governor, the President Pro Tempore of the Senate, and the Speaker of the House were authorized to approve rules and regulations, so as to insure that the Acts suspending existing legislation would not leave a vacuum in the law. This Act has been defeated in the House.

Senate Bill 85 was introduced by Senator Edmonds and Senator Thomas B. Wilson of McKean County. It provided for greater elasticity in the school law, by allowing the suspension of existing school laws at the request of the Local Board and with the permission of the State Superintendent, and the reassignment of employment certificates to the older children above fourteen. This Act was designed to help the farmers, by affording an opportunity whereby the teaching in the high schools and the upper grades might be suspended when there was need of the older pupils to collect fruits and vegetables and to help in farm work, and then to provide that later when there was less demand for farm work, that an additional period of instruction might be given to the pupils who were affected. This Act was endorsed by the Pennsylvania State Education Association as a legitimate emergency measure, but it has also been defeated in the House. In commenting upon this legislation, Senator Edmonds made the following statement:

"At the beginning of the Session, with a Democratic House and a Republican Senate, both sides agreed to keep partisan matters out of consideration and to address such laws as were for the benefit of the State. For the opening weeks of the session politics was excluded, but later when the Democratic House provided for the repeal of the State Four Mill Personal Property Tax it introduced a partisan element in the last week of the session. It was quite clear that this bill was not under the Governor's call and hence could not be considered at the Special Session. But in addition, the bill was so carelessly prepared that it would have involved the State in a number of bitter constitutional battles in many other branches of the taxing system. The defeat of this bill in the Senate, however, insures that the subject will be considered again at the regular session in 1943, and now the Democrats are on record as opposing the State Four Mill Personal Property Tax which was originally passed in Governor Earle's

administration. But this situation illustrates the difficulty of having one branch of the government under the control of one party and the other branch under the control of the other party."

Senate Bills Nos. 74 and 85 were considered in the House on their merits, and as a result, some people have drawn between the two does not stop with those things which they have been accustomed to use in their daily living. It goes down to what they feel is necessary and what is unnecessary in government practices. Above all, the line which the people are drawing more clearly every day is the line between all-out national needs and the half-way measures which political expediency might dictate as an advantageous position. A few years ago this might not have been possible. But today with a resourceful, self-reliant, hard-headed, common sense spirit reasserting itself in the face of a national peril, more and more people are putting first things first in their thinking. And, they are insisting that the government must do the same thing.

Called upon as he is to buckle down to the intensely practical problems of the war, the average American resents anything which smacks of favoritism for political advantage, or which indicates a lack of courage in dealing with individuals or groups who attempt to sabotage the war effort for selfish purposes. Sacrifices and selflessness never die and never can go hand in hand.

**TREND OF EVENTS BY CONGRESSMAN J. WILLIAM DITTER**

A week ago notice was served on the American people that the all-out war effort would require a continuation of the production of many manufactured articles which they had come to look upon as necessities. The reaction to the order has already been felt in Washington, but in a way that had not been expected, by many who are a part of the little life of the Capital.

There was little if any complaint expressed that the curtailment would cause inconvenience or that the contemplated shortages would not be accepted by the people willingly as a part of the price of winning the war. Letters coming into the Congressional offices indicated the Spartan spirit of willingness to sacrifice—to forego not only luxuries, but necessities to further the war effort. No more encouraging evidence of a grim determination to

## Asks Court to Order Property Transfer

An equity action seeking to force Edwin Kolb to transfer a property on Germantown pike, Whitmarsh, Springfield township to Roland L. and Beatrice R. Randal, has been filed in the office of Prothonotary Earl B. Bechtel.

The bill alleged that on February 3, 1942 Kolb, through his agent, entered into an agreement of sale with George D. MacCool for the ground and buildings located 222 feet North of City Line on the West side of Germantown pike. An accompanying agreement lists the sale price at \$5,250.

It is alleged that on that same date Kolb approved in writing sale of the house and lot.

On March 30, 1942 Agnes Davis MacCool and George D. MacCool assigned the contract to Roland L. and Beatrice R. Randal for a consideration of \$1.

On April 2, 1942 at the Norristown Penn Trust Company the Randals tendered to Kolb \$4,725 representing the balance of the consideration and demanded conveyance of the property from Kolb. Kolb refused. The Randals now charge breach of agreement.

The Randals ask the court to enjoin Kolb from conveying, encumbering or transferring the premises and that he be directed to convey it to them and an order enforcing the agreement of sale.

**Hospital Service Group at Walker Bro.**

Employees of Walker Brothers, local construction manufacturers, this week doubled the size of their hospital service group in the non-profit Blue Cross hospital plan, when more than 70 persons enrolled in the Associated Hospital Service.

Enrollment arrangements were made through plant superintendent Charles Flathbarth. This enrollment is an addition to the group formed about three years ago with 60 employees participating. By March 1, 1942, 31 persons within the group had required hospital care and had used benefits totalling \$1,788.25.

Walker Brothers is one of 6,500 business firms and industries in Philadelphia and six surrounding counties which have formed their hospital service groups. More than 385,000 subscribers are enrolled in the Associated Hospital Service through these groups.

# School Budget For Plymouth

School Board offers budget of \$100,916—Open for public inspection—Based on 16½ mill, \$5 per capita tax rate.

Plymouth Township School Board has set up a tentative budget amounting to \$100,916 for the fiscal year of 1941-42, at the April meeting of the board, Tuesday night at Plymouth Consolidated School.

The amounts of the proposed budget according to the division set up by the Pennsylvania State School Accounting System is as follows:

A. General Control	\$ 3,100.
B. Instructional Service	64,550.
C. Auxiliary Agencies	2,900.
D. Operation of Plant	7,290.
E. Maintenance	1,225.
F. Fixed Charges	1,851.

Total Current Expenses \$ 80,916.  
G. Debt Service 20,000.

Total Expenditures... \$100,916. No increase in the school tax rate is expected to be made. The present tax rate is 16½ mills for property, and \$5 per person.

With the exception of Debt Service and Maintenance, all items of the budget are in approximately the same amounts as that of the current year, J. Maurice Strattan, supervising principal, states.

The increase in Debt Service is due to the board's plans to call in \$19,000 worth of School District Bonds during the coming year. All of these would be ahead of schedule and would effect a large saving to the taxpayer in interest in subsequent years.

The board authorized the closing of the schools to classes April 27, to permit their use for district registration of men 45 to 65. Sugar-rationing registration will be held at the school on the afternoon and evening of May 12 and 13. Families are expected to register for sugar allotments.

Bills in the amount of \$1234.29 were granted. Receipts for the month were \$832. Fred Woerner, president, Lewis McQuinn was absent. The next meeting will be held May 11, when action on adoption of the budget is expected.

## Fire Damages Apartment House

The Washington Fire Company was summoned to Washington and Forrest streets shortly after 2 Tuesday afternoon when the roof of the former Forrest House, now operated as an apartment house by Charles Hollis, was discovered to be on fire.

The firemen used a plug stream and fought the blaze for a half hour before it was extinguished. A section of the roof was destroyed although no damage resulted to the interior of the building. An investigation showed the fire was caused by a discontinued chimney.

THE BOYS AT CAMP may write more letters home if they have stationery, inscribed with their name and camp address, 200 single sheets, 100 envelopes, variety of colors, fully inscribed, only \$1 at RECORDER. Phones 50 and 501.

## Holstein Cow Best In Test of 545 Cows

Dairy Herd Improvement Association Number One, supervised by Gilbert Hess, tested 545 cows in 28 rings for butterfat production during March.  
The highest butterfat record was made by a registered Holstein owned by Wayne Schultz, East Greenville that produced 82 pounds. Second place went to a registered Guernsey owned by Zimmerman Brothers, Center Square, with a record of 78 pounds of butterfat.  
A registered Holstein in the H. D. Allebach herd, Trappe, produced over a ton of milk during the testing period.  
The highest herd average butterfat production went to 16 registered Guernseys owned by Alvin Funk, Collegeville, with 42 pounds. The herd owners who had cows to qualify for the honor roll for having produced 40 pounds or more of fat for the month were Wayne Schultz, East Greenville, 10 registered Holsteins; Zimmerman Brothers, Center Square, 11 registered Guernseys; Harvey Murphy, Norris-town, R. Hattie R. Reiff  
Immediate relatives are named chief beneficiaries of the estate of Hattie R. Reiff, Souderton, who died while visiting at the home of a son, Dr. E. Paul Reiff, Merion, according to terms of her will disposing of an estate valued at \$56,000 and upwards.  
Personal effects, she directed, are to be divided equally between the son, Dr. Reiff and a daughter, Mrs. Anna Reiff Keely, wife of Attorney Wallace M. Keely, 1901 DeKalb street, Norris-town.  
A fund of \$1,000 is established, the income to be used for upkeep and replacement of shrubbery at several points in the Christ Reformed Church, Indian Creek, Franconia Township.  
A grandson, Lieutenant Allen R. Keely, is bequeathed \$1,000 and a friend, Ella Sellers, \$300 and a \$300 trust fund is established for the life benefit of Annie E. Hartzell, Pottstown, the principal to be used for funeral expenses at her death.  
The Union National Bank and Trust Company, Souderton, is named trustee of a \$20,000 trust fund

## SOLDIER TRANSFERRED

Carlin Webb, son of Captain and Mrs. Peter Webb, 119 Forrest street, was transferred from Camp Lee, Virginia, to Orlando, Florida, on Wednesday. He is with the Medical Corps, and spent last weekend at his home here.
