**3 RULES**  
big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
2. Get plenty of exercise without unduly fatiguing yourself.
3. Try for a bowel movement at exactly the same hour every day.

Everyone's bowels need help at times, but the best thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a good cleansing-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with a clean system!

### Truck 'Cutting Out'

The Packard coupe of Roy B. Freeman, 321 Lawton road, Willow Grove, was totally demolished in an automobile accident last evening about 5:45 on Butler pike, near Flourtown road. A large truck loaded with hay, being driven by Joseph P. Groschig, of Lucon, near Schwenksville, on its way to Philadelphia, coming south on Butler pike, cut out for a parked car, and the Freeman car in order to avoid a head-on collision struck a culvert, then an electric light pole, and fifteen feet and upset. Mr. Freeman escaped injury, but Mrs. Freeman, who was riding with him, was cut about the head, face and hands. After the car was lifted by some men of the community, Mrs. Freeman fainted, and was carried to the home of Warren Brooke, where she was revived. She was then taken to the office of Dr. Percy Corson, who treated her injuries and later she was removed to her home by Raymond Brelschi of Butler pike. A dog riding in the Freeman car was also hurt.

Both wheels were torn completely off the Freeman car, and it was so badly damaged otherwise that it had to be towed to Radcliffe's garage, on Germantown pike, for repairs.

The pole which the car struck was broken completely in half. Officer Harry Steinmetz of the Whittemarsh police, investigated the accident.

### Marker of Historic Spot in Way of Road

Widening of a portion of Ridge pike near Cherry lane, Barren Hill, will necessitate the removal of a marble marker erected years ago by the Montgomery County Historical Society to commemorate General Lafayette's encampment in the community.

Work of improving the pike is under direction of the county commissioners. It was started at this point several days ago. The marker, within ten feet of the present highway, will be removed further into the adjoining field which was the scene of a huge celebration in 1928 commemorating the 150th anniversary of Lafayette and the 175th anniversary of the founding of the congregation of St. Peter's Lutheran church, Barren Hill.

On one side of the marker this inscription is cut:  
"On the grounds in the rear of this stone, the American troops under Lafayette were encamped from the 18th to the 20th of May, 1778."

On the other side is the inscription:  
"About three hundred yards southwest of this place were encamped the Indian Scouts, who were a part of Lafayette's command."

Talks on the life of the great inventor were given by a number of pupils. Other boys and girls spoke of Edison's inventions and read their compositions.

The eighth grade was in charge of a weekly assembly program yesterday morning, directed by Miss Cordelia Bechtel, principal. Ada Smith read a portion of Scripture; Dorothy Griffith and Genevieve Woyden were heard in a vocal duet. Evelyn MacIntyre gave a recitation; Edith Keisel, a brief talk, Elwood Swanson played an accordion solo and Ada Smith, a harmonica selection.

Two other Whittemarsh township schools, Barren Hill and White Marsh, also are honoring Edison in programs today.

"I believe," said the cheery philosopher, "that for every single thing you give away, two come back to you."  
"That's my experience," agreed the other. "Last March I gave away my daughter and she and her husband came back in July."

### Motorist Flees From Scene of Wreck

Ray P. Wiley, 24, a salesman, of 6329 Bouvier street, Philadelphia, fled through a field in darkness, Wednesday night, after the sedan he was operating, according to Whittemarsh township police, crashed into another auto overturned at Ridge pike north of Manor road, Barren Hill.

Several motorists who arrived on the scene within a moment after the accident informed Officer Harry Steinmetz that they saw a man climb from the wreckage of Wiley's sedan, dart into the field and disappear in the direction of Roxborough Country club.

Barry Zeeman, a musician playing in the Paramount orchestra at Schubert theatre, Philadelphia, and a fellow musician who was riding with him to Pottstown, escaped unhurt as the sedan, traveling toward Philadelphia, plunged into their auto.

Zeeman told Officer Steinmetz that he swerved his car to the extreme side of the pike when the salesman's auto zig-zagged in the path of the musician's auto. Both machines, wrecked badly, were towed to Gillingier's garage, Barren Hill.

Wiley's name was obtained from a number of order pads which were found in an expensive traveling bag. Also in the bag were bottles containing samples of flour and grain products.

When police officers called at the Wiley home, early Thursday morning, a woman who said she is the wanted man's sister, asserted her brother had not been home and that he had not notified her of the accident.

The collision was responsible for a serious motor and transit traffic tieup. The overturned auto alighted on a trolley rail.

### 'Weather' Contest Nets Class \$45.37

The "weather" contest, conducted during the month of September by the Ladies' Bible Class of the Plymouth Evangelical Congregational Church, was brought to a close last night, with an enjoyable banquet in the Harmanville Fire House. The sum of \$45.37, realized in the contest, was turned over to the class treasurer.

The contest was carried on by two teams, the sunshine team and the rainy-day team. Members of each team placed a penny in a bag, according to the nature of the weather. The rainy-day team was victorious, with a total of \$26.82, and the sunshine team collected \$18.55. Mrs. Eugene Lightkep married the victorious team, Mrs. Joseph W. Markle, the sunshine team.

The losers entertained the winners at last night's event. Following a delicious banquet, prepared and served by members, an entertainment program was presented by the sunshine team. Ten members, dressed in orange costumes, represented the sun. Solos were sung by Mrs. Marie McArdie, Mrs. J. Fowler, Mrs. Warren Thomas and Mrs. Patrick Wade; there was a vocal duet trio by Mrs. Wallace Kelly, Mrs. Walter Curmies, and Mrs. John Newman. As a surprise feature, Mrs. Daniel Armstrong, and Mrs. Vickars Tarbuton, clad in eccentric costumes, sang "They Go Wild, Simply Wild, Over Me," scoring an unusual hit.

There were forty two persons at the event all of them class members. Mrs. Vickars Tarbuton is president of the class, and Miss Katherine Rodenbaugh is the teacher.

### Firemen Prepare to Prevent Field Fires

Fewer fires occurred in the fourth district of the Montgomery County firemen's association in the last three months than in a corresponding interval in the history of the fire companies.

Chiefs of nine companies comprising the fourth district submitted this report at a monthly meeting Wednesday night at Lincoln fire house, Cedar Heights. John Adam Staub, Jr., chairman presided.

Although few blazes broke out in the last three months, firemen prepared to fight numerous field fires in the next few months. Importance of fire prevention, with particular reference to the field fire menace this season, stressed travel to their home. The top of the car was also badly shattered and the windshield broken.

The district consists of Spring Mill, Barren Hill, Harmanville, Lincoln, Floutstown, Oreland, Wyndmont, Wisaukelcon of Amberg and Fort Washington fire companies. The next session will be held in November at Flourtown fire hall.

### Pinned Under Overturned Car

Harry and Victor Lockoff, brothers, of Butler pike, Harmanville, narrowly escaped serious injury yesterday about one o'clock, when their car was upset at Butler pike and Flourtown road. Lockoff Brothers, who are dealers in potatoes, were coming out Flourtown road into Butler pike, when Joseph Organski, who resides in Butler pike, backed his sedan out of its driveway catching his rear bumper under the Lockoff car, upsetting it. Victor Lockoff was pinned under the car and sustained a gash over his right eye, which was treated at the Organski home. Their car was later pushed to the Organski driveway and the tires were repaired, thus enabling the Lockoff car to travel to their home. The top of the car was also badly shattered and the windshield broken.

**Arrested in 3d Degree Case**

Argument on the appeal of the three officials convicted September 30 of mistaking a prisoner in a "third degree case" is scheduled for hearing next week during the October term of Argument Court.

The defendants, Ralph J. Rinaldoff, former assistant district attorney, and Detectives Joseph Trunk and Chief Brooks Cassidy, Upper Dublin, were convicted of four counts, involving aggravated assault and battery and false imprisonment. Their sentences has been deferred pending action on the appeal for a new trial.

The brief and the additional reasons for the new trial have not been filed, due to the delay in obtaining a copy of Judge J. Ambler Williams' charge to the jury. This charge was transcribed at the request of defense attorneys, T. Lane Bean and Edward F. Kane, but it has not been delivered to defense. Judge Williams has the copies and it is expected they will be given to the two attorneys within the next few days.

It is expected that this will cause a motion by the defense for a continuance on the argument on the appeal on the ground that they have had insufficient time to prepare their argument.

Meanwhile the trial of State Trooper John Bucci, Hatfield, self-admitted "ghost" in the proceedings during the questioning of William Thomas Campbell, Joseph prisoner, on May 15, is also expected to be delayed.

Judge Williams has indicated that he will try the Bucci case and should the defense agree to the trial of Jacob "Big Jake" Lehman, Paul; George Steiner, Norristown; Michael Gallagher and James Deynno, both of Devon, for the Spanish murder, then the Bucci trial will have to be postponed until the week of December 7. The jurist has asked that the murder case be prepared for November 2 and the special prosecutor is expected to be named for this case within the next week.

At the hearings on the appeal, Judges Williams and Corson will sit on the bench as Judge Knight is disqualified, according to the defense, due to his appearance as a witness in the case during the trial.

**3 RULES big help to BOWELS**  
What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:  
1. Drink a big tumblerful of water before breakfast, and several times a day.  
2. Get plenty of exercise without unduly fatiguing yourself.  
3. Try for a bowel movement at exactly the same hour every day.  
Everyone's bowels need help at times, but the best thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a good cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with a clean system!

Ten members, dressed in orange costumes, represented the sun. Solos were sung by Mrs. Marie McArdle, Mrs. J. Fowler, Mrs. Warren Thomas and Mrs. Patrick Wade; there was a vocal duet trio by Mrs. Wallace Kelly, Mrs. Walter Cummings and Mrs. John Newman. As a surprise feature, Mrs. Daniel Armstrong, clad in eccentric costumes, sang "They Go Wild, Singing Wild, Over Me," scoring an unusual hit.

**Barren Hill**  
Frank Payne, sixteen year old son of Mr. and Mrs. F. G. Payne, of Center avenue, who was operated on for appendicitis at Chestnut Hill Hospital, is much improved.

Mrs. Howard Crossman, of Chestnut Hill, entertained the members of the Barren Hill Card Club, Wednesday evening at her home. There were three tables of "500" and after cards, refreshments were served. Bittersweet and fall foliage were used for decorations.

After several months, death claimed Mrs. Barbara E. Furlong, age 72 years, on Tuesday. She resided at the home of her son-in-law, August Bruppacher, Center avenue.

**St. Peter's Church**  
Ira T. Astle, superintendent, will be in charge of Sunday school at St. Peter's Lutheran church, Sunday, at 10 o'clock. The pastor, Rev. H. M. Bower will speak on, "A Christian Giving."

**Motorist Flees From Scene of Wreck**  
Ray P. Wiley, 24, a salesman, of 6829 Bouvier street, Philadelphia, fled through a field, in darkness, Wednesday night, after the sedan he was operating, according to Whitemarsh township police, crashed into another auto and overturned at Ridge pike north of Manor road, Barren Hill.

Several motorists who arrived on the scene within a moment after the accident informed Officer Harry Steinmetz that they saw Wiley climb from the wreckage of Wiley's sedan, dart into the field and disappear in the direction of Roxborough Country Club.

When police officers called at the Wiley home, early Thursday morning, a woman who said she is the wanted man's sister, asserted that her brother had not been home and that he had not notified her of the accident.

**Spring Mill**  
An oyster supper will be served tomorrow night by Lincoln Fire company of Cedar Heights, in the fire hall.

Rev. G. W. Balles, of Mount Holly, N. J., will be the speaker at services Sunday at Spring Mill Baptist church. He will preach at 11 a. m. and 7:45 p. m. Axel Swanson, Sr., of North lane will introduce the visiting clergyman.

The Willing Helpers of First Baptist church, at a monthly meeting last night at the home of Mrs. George Dattil, Cedar Grove road, developed final plans for a masquerade party to be held this evening in the annex. An interesting program of entertainments will be presented and prizes will be awarded wearers of various costumes adjudged the best in several classifications.

**School Pays Tribute to Edison**  
Exercises in tribute to Thomas A. Edison were presented this morning by the School City Association at Spring Mill consolidated school, under the direction of the faculty.

Edison's life on the life of the great inventor were given by a number of pupils. Other boys and girls spoke of Edison's inventions and read their compositions.

The eighth grade was in charge of a weekly assembly program yesterday morning, directed by Miss Cordelia Bechtel, principal. Ada Smith read a portion of Scripture; Dorothy Griffith and Genevieve Woyden were heard in a vocal duet. Evelyn MacIntyre gave a recitation; Edith Keisel, a brief talk. Elwood Swanson played an accordion solo and Ada Smith, a harmonica selection.

Two other Whitemarsh township schools, Barren Hill and White-Marsh, also are honoring Edison in programs today.

"I believe," said the clergy philosopher, "that for every single thing you give away, two come back to you."  
"That's my experience," agreed the other. "Last March I gave away my daughter and she and her husband came back in July."

**Truck 'Cutting Out' Wrecks Couple**  
The Packard coupe of Roy B. Freeman, 221 Laventon road, Willow Grove, was totally demolished in an automobile accident last evening about 5:45, on Butler pike, near Flourtown road. A large truck loaded with hay, being driven by Joseph P. Grosberg, of Lucon, near Schwenksville, on its way to Philadelphia, coming south on Butler pike, cut out for a parked car, and the Freeman car in order to avoid a head-on collision struck a culvert, then an electric light pole, slid fifteen feet and upset. Mr. Freeman escaped injury, but Mrs. Freeman, who was riding with him, was cut about the head, face and hands. After the car was lifted by some men of the community, Mrs. Freeman fainted, and was carried to the home of Warren Brooke, where she was revived. She was then taken to the office of Dr. Percy Corson, who treated her injuries and later she was removed to her home by Raymond Breisch, of Butler pike. A dog riding in the Freeman car was also unhurt.

Both wheels were torn completely off the Freeman car, and it was so badly damaged otherwise that it had to be towed to Radcliffe's garage, on Germantown pike, for repairs.

The pole which the car struck was broken completely in half. Officer Harry Steinmetz of the Whitemarsh police, investigated the accident.

**Workman Burned**  
Joseph Poley, 47, 2229 South 68th street, Philadelphia, was fatally burned about the face, arms and legs Tuesday afternoon at the Eastern Penitentiary at Gratesford.

The man was employed as a plumbing superintendent by Day and Zimmerman, construction engineers. He was working in a trench with a number of other men when an acetylene torch line broke. His clothing was ignited and before fellow employees could extinguish the flames, he was badly burned. He is a patient at Mott-gomery hospital.

**Marker of Historic Spot in Way of Road**  
Widening of a portion of Butler pike near Cherry lane, Harrow, Pa., will necessitate the removal of a marble marker erected years ago by the Montgomery County Historical Society to commemorate General Lafayette's encampment in the community.

Work of improving the pike is under direction of the county commissioners. It was started at this point several days ago. The marker, within ten feet of the present highway, will be removed further into the adjoining field which was the scene of a huge celebration in 1828 commemorating the 150th anniversary of Lafayette and the 17th anniversary of the founding of the congregation of St. Peter's Lutheran church, Barren Hill.

On one side of the marker this inscription is cut:  
"On the grounds in the rear of this stone, the American troops under Lafayette were encamped from the 18th to the 20th of May, 1778."

**Plymouth to Start \$20,000 Road Job**  
All formal contracts relative to the construction of a mile of concrete on Walton road at a cost of \$20,000 have been signed by the Plymouth board of commissioners. Isaac J. Sheppard, secretary, said last night. Work on the project will be started early next week.

The commissioners will begin the construction of Colwell lane, from Ridge pike and North lane to the Conshohocken borough line, tomorrow. This job will cost approximately \$14,000, of which the county commissioners this week agreed to pay half in accordance with their proposition to release funds in an effort to alleviate the unemployment situation.

Colwell lane will be of macadam. A number of residents in Plymouth township will be employed on the job.

**Sunday School to Join in Service**  
Delegations of pupils of Cedar Heights Sabbath school will take part in services Sunday at Plymouth Baptist church and Plymouth Evangelical Congregational church, in addition to holding their own meeting at 2 p. m.

Led by Rev. William E. Garman, superintendent, boys and girls, accompanied by a number of adults, will hike to Spring Mill Sunday morning, reaching the Baptist church at 10 o'clock. Rev. Garman will talk briefly on a membership contest to be launched among five Sabbath schools in this district, November 1, under auspices of the Men's Bible classes.

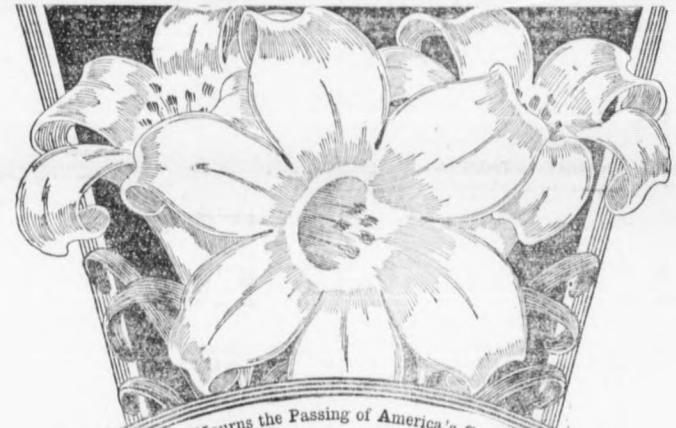

The group will attend a rally at 4 o'clock Sunday afternoon at Plymouth Meeting. Three other schools, Barren Hill, Cold Point, and Spring Mill will be represented at this service.

Election of officers of the Junior church will take place at a weekly meeting at 8:30, with Mrs. Fred Bebold and Mrs. Elmer Fraeber in charge. The Christian Endeavor society will meet at 7:30. The evening congregational worship will start at 8. Rev. Mr. Garman will preach on, "The Christian Inventory."

**Sues Policeman For \$1000 Damages**  
Andrew White, Springfield Township police sergeant, is made defendant in two claims for \$1000 damage each by Benjamin A. Henning, 622 Green street, and Clarence Henning, East Marshall street, both of Norristown.

The Hennings allege that White driving a township police car crashed into an automobile of Benjamin Henning on the morning of September 16, 1930 at Ary and Green streets, Norristown. Clarence Henning asks \$1000 damages for injuries, while Benjamin asks \$1000 for damages to the automobile.

John Ace, Ardmore, through Attorney M. Lester Haws, asks for \$20,000 damages of Thomas C. Poole, Mastings Manor Apartments, Overbrook for injuries sustained in an automobile accident in Ardmore March 16, 1931.

FRIDAY, OCTOBER 23, 1931.

According to the figures of the county commissioners, as returned by the registry assessors, there are more women qualified to vote in the boroughs of the county than there are men.

The Charity Racket

On two occasions there has been discovered in Philadelphia organizations that made a racket of charity by paying big commissions to solicitors, who successfully appealed to a public desirous of aiding the unemployed.

It is charged that 70 to 80 per cent. of funds contributed to solicitors, using the cloak of religion in appealing for the unemployed, were used in payment of commissions, overhead expenses and "rake-off."

This community has been looked upon as a fertile field for solicitors for unknown causes to work. Small contributions are asked. The giver knows nothing of many of the organizations asking aid and knows nothing of the solicitor and how the money will be distributed.

A Special Prosecutor

Judge Williams' request for a special prosecutor for the Ralph Spanish murder trial cannot be attributed to politics in the face of conditions that have existed in the county.

Spanish was murdered in cold blood at a principal street corner in this borough. Before the murder, a gang of admitted gamblers were looking for their victim.

Montgomery county cannot afford to permit such a violent transgression of the law go unpunished. It is not the belief that the theft of a slot machine was the cause for the murder.

It is common gossip that gambling and bookmaking is carried on openly in various sections of the county and what happened here is the usual method pursued by gangsters to protect their illicit trade.

If there is a gambling ring operating in this county, it can be brought out in the Spanish murder trial.

The Commonwealth apparently has a very strong case as there were eye-witnesses to the shooting and testimony given at the hearing showing outsiders operated a gambling place here.

Judge Williams' request for a special prosecutor may be accepted that he is assuming the responsibility that there will be a fair and vigorous prosecution of the accused murderers and is a notice to gangsters that it will be unhealthy for them to attempt an invasion into this county.

The Railroad Rate Case

General dissatisfaction seems to be the result of the Interstate Commerce Commission's decision in the railroad freight rate case. The commission refused the petition of the railroads for a general advance of fifteen per cent. in freight rates and has decreed that advances may be made upon certain commodities, with the proceeds derived from the advance to be pooled and assistance given to the weaker roads to meet their interest obligations.

The advance authorized is estimated to give the railroads about one-fourth of what was anticipated a straight fifteen per cent. advance would bring and which would bring the roads out of their present difficulties.

An advance in freight rates under present conditions is not the answer to the railroad problem. The roads are not only affected by the general decrease in business but are constantly losing business to the motor transport.

Warren Sibley, her director, and reported to be her next matrimonial prospect, is questioned. Mrs. Sibley is also questioned. Neither has an alibi. The police are unable to locate Leighton, the recently-divorced husband, or Robert Worth.

CHAPTER FIVE It was characteristic of Robin Dale that he did not discuss the tragedy with Rex Forsythe whom he found at home upon his return from Police Headquarters.

Indeed, during the week following, no additional progress was made either by the police or the district attorney's office.

He testified that after he left the Siment Pictures studio he had wandered about for an hour or more, finally arriving at the apartment of a friend in Laurel Canyon.

There had been a number of conferences in the offices of Maurice Kenon and Captain Sommers but the authorities had been unable to arrive at no definite decision.

once had used to save her life. It had hung as a souvenir, stuck through the skin of the cobra, in the library of their home.

He then returned to his quarters before the servant arrived. But upon one point the scheme went awry. Receiving the note next morning the husband's comrade found forthwith to see the

Lady. Here he was found with her body and the note as motive for the deed. Peculiarly the knife could not be found, although it was under the very eyes of the police.

"I've formed a theory, Forsythe, which requires only one or two factors for complete substantiation. I believe those points will be cleared up within a very short time. I'd like to discuss it with you then and get the benefit of your calculations."

"Of course, Dale—I'd be more than interested. You can understand that now, old man, for you've probably learned how I felt toward the lady."

Dale nodded and put his hand affectionately about his friend's shoulder, expressing thus more than he could have said in words.

At nine o'clock they left for the promenade. At ten the last work of Irma Gladden began to unravel before a select audience of studio officials. Dale recognized Warren Sibley and his wife among those present.

DISPUTE OVER PRODUCT STARTS AN INDUSTRY This past week Frederick Riehle, a manufacturer of testing machines, died in Philadelphia.

It was a Conshohocken firm that started him making these testing machines.

Fifty-six years ago the Fulton furnaces made some very large pipe for a firm in Philadelphia.

Mr. Fulton brought suit against this firm and then went to the machine shop of Frederick Riehle on 8th street, below Columbia avenue, Philadelphia, and asked him if he could make a machine to test the strength of the pipe in question.

From that time on Mr. Riehle devoted his entire business to the making of testing machines.

Bean and DiCamillo, Regular Tackles, May Not Be Able to Play.—Team to Leave by Bus at 9.30 Tomorrow Morning.

On the even of the big game with Allentown tomorrow afternoon the chances for Conshohocken have been lessened through the almost positive loss of the two regular tackles, Bean and DiCamillo.

While the team is sure to feel the absence of DiCamillo the boys are hopeful of the best and will give their best to bring home a victory.

The last scrimmage before the game was held yesterday afternoon. The final preparations will be made this afternoon when the boys will be given a light signal drill.

The game is scheduled to begin at 2:30 o'clock.

East End and St. Mary's C.C. Meet Sunday

Rivals to Clash on Center Athletic Field in Biggest Game of Season.—Both Teams Will Present Full Strength.

The biggest independent game in borough thus far this season will be played on the Center Athletic Field Sunday afternoon when the East End Reds will clash with the powerful St. Mary's C. C. from the north end section of the borough.

This game will be for keeps in a foregone conclusion. For several years the two teams have been arch rivals on the gridiron and the only desire either team entertains is to defeat the opponent.

The record shows that the Saints have played five games to date, winning three, tying one and losing one.

East End has played four games and have been victorious in all. The team has scored fifty-nine points as against thirteen points scored by their opponents.

The game is attracting much attention in all sections of the borough. The teams have a large following and all will be on hand to end their favorites all the more support possible and indications point to the biggest foot ball gathering that has witnessed a contest in this borough in many moons.

The probable starting lineups of the teams is as follows:

St. Matthew's High Has New Grid Team

Leo Redmond and Jimmy Fineran Coaching Blue and White Team

The spirit of Notre Dame prevails these days at St. Matthew's high school.

Since the coming of Dick Moyalhan, former Villanova quarterback, to coach the Saints three years ago and kept up by his successor, Bill Ford, local athlete who starred on the Mat-Lin team of a few years ago, the spirit of the South Bend institution has been imbued in the hearts of the youthful St. Matthew's students.

Moyalhan installed the Notre Dame system and Ford kept it up with the same vigor. The Blue and White team had one of the best little high school eleven in this vicinity for the past three years.

This year, however, foot ball was abolished at St. Matthew's and a ball of gloom came over the boys who had played on the teams the years before and who would just give anything to don the moleskins once again.

Two weeks ago, several of the enthusiastic gridgers, implored officials of the school to let them use the suits to scrimmage, if not for any games.

In the fortnight the athletes have advanced admirably and now have a well organized team. Patsy Bello, who alternated on the line and in the backfield last year, has been placed at fullback and made captain. Bello is a hard dingy back and is used mostly on line backs.

One game has been secured so far. That is with St. Patrick's high some time in November.

### Hospital Roof Brings Joy to Many Patients

Talk about roof gardens! Have you ever taken an elevator trip to the roof of Bryn Mawr hospital?

It would be an illuminating experience. A high wall encloses the ample space. On the smooth floor are beds containing patients of all ages. Laughing, hopeful, courageous, rapidly regaining strength in a most healthful environment.

Each hospital bed rests upon rubber-tired wheels. It is an easy matter any time to wheel it into an elevator and out onto the roof.

And the joyful treat that awaits the patient there!

Miles upon miles of rolling country stretching out on all sides. Foliage, shrubbery, flowers. Twitter of birds. No jarring noises. Clear sky above. An atmosphere of perfect calm.

No matter what the season of the year, you will find the roofs well peopled with appreciative convalescents.

In Fall and Winter this spot seems to be favored with balmy air which encourages invalids to "loaf and invite the sun."

In Spring and Summer it is fanned by gentle breezes and defies the thermometer's antics.

Even in the hospital rooms, it seldom is necessary to turn on the

electric fans—so delightfully cool is the location. And—that being the case—you can imagine how much more comfortable it is on the roof.

A visitor, the other day, noticed a woman lying in her bed on the hospital roof, reading a book. In changing her position she permitted her eye-shade to fall to the floor. A nurse was nearby. But before she could move, a little crippled girl tumbled from her wheelchair, rescued the eye-shade, and restored it to its position on the older patient's forehead.

There was a quick exchange of laughter, patting of shoulders, handshakes—then a return to the business of getting well.

One could not help feeling that the people on that roof were fortunate in having something more than mere hospital care.

An institution has a soul—and the soul of Bryn Mawr hospital is something apart from its physical equipment—something defying analysis.

At a meeting of the Board of Trustees of the Bryn Mawr hospital, held recently at the hospital, Dr. Robert G. Gamble was elected of the staff, and Dr. W. Estell Lee was elected chairman of the Executive Committee of the staff and chairman of the staff.

How About The Humbugs? Easy on the big bugs: it is not they who do all the harm—it's the millions of little ants all working together.

### Many Apply For County Aid For Roads

William D. Ridgway, president of the Montgomery County Board of Commissioners, today announced that 36 applications for county aid from the special \$100,000 fund recently appropriated by the board had been received from boroughs and townships.

All of the applications have been approved for a total of \$102,250. There are stipulations imposed by the commissioners on the townships and boroughs that work start immediately and that Montgomery county labor be employed.

Virtually all of the plans and specifications have been forwarded to the State Highway department for approval and actual work in several communities will start within the next ten days. The work is required to be finished by January 1, wherever possible.

In all cases the county will not approve payment of funds unless the bills for the different projects are first presented. Then the county will pay 50 per cent of those bills, provided they do not exceed the appropriation set aside for each community.

And the Top is Close To The Bottom Analysis of market quotations are unanimously of the opinion that there's plenty of room at the top.

## Nothing less than a six can give you built-in smoothness

The whole question was settled long ago—as to how many cylinders it takes in a motor car engine to give satisfactory smoothness. Science definitely established the fact that at least six are necessary. Engineers confirmed this by repeated test and experiment. Manufacturers soon took the cylinder question so completely for granted that, one after another, they changed over to the building of sixes and other multi-cylinder cars exclusively.

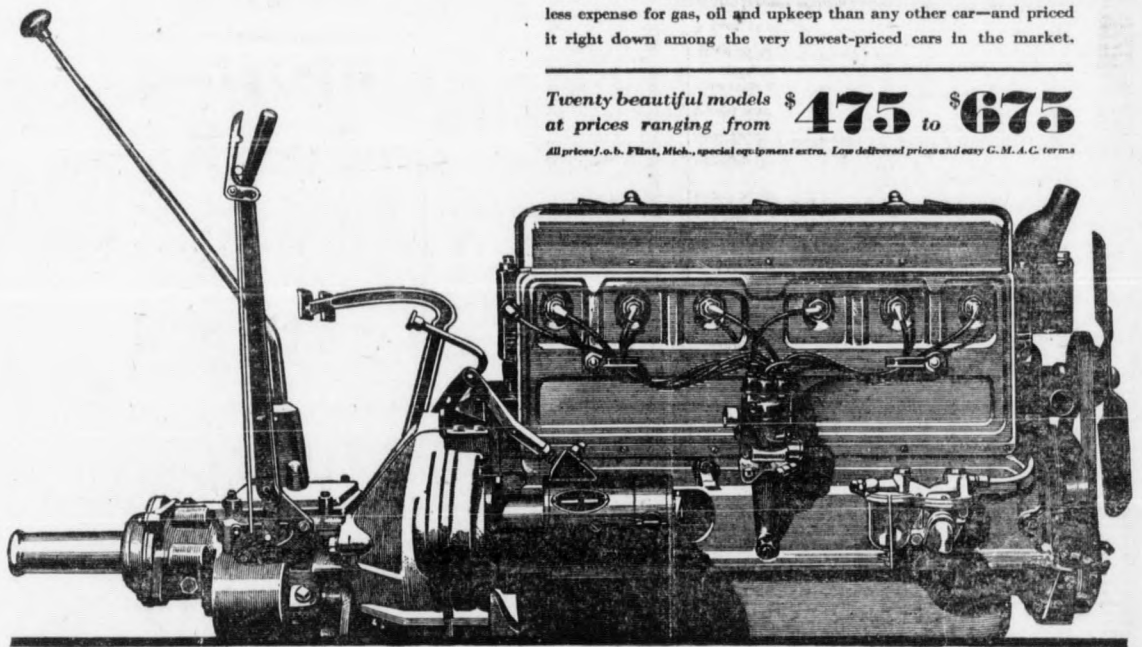

So today, the public accepts the multi-cylinder engine in the same way that it accepts 4-wheel brakes, parallel-mounted springs and every other principle of proved and acknowledged superiority. Of course, nothing less than a six can give built-in smoothness.

This general acceptance of the multi-cylinder idea has had a great deal to do with the fact that the Chevrolet, month after month, during 1931, has been the largest selling automobile. For Chevrolet is a six. Hence, objectionable vibration never gets a chance to start in a Chevrolet—much less to annoy driver and passengers, and shorten the life of the car! Chevrolet smoothness is built-in!

Today, this six-cylinder smoothness and dependability are within reach of every new car buyer. For Chevrolet has produced a quality six, powered it with a firmly-mounted motor—engineered it to run at less expense for gas, oil and upkeep than any other car—and priced it right down among the very lowest-priced cars in the market.
